VIDEO-DIALOGUE WITH FRANCESCA GAGLIARDI

In collaboration with Opere Scelte

Francesca Gagliardi tells about her last project that she will show next year in Switzerland at Monte Verità Foundation.
The focus of this project is a shield that became the essence of isolation, a sort of shelter that becomes part of the artist's body.
This work marks the over time of this lockdown where Francesca works on herself, on the place she has decided to live in, in the nature of the countryside that constantly changes, following her moods.

Narrator's voice Natascha Padoan.
