VASO (VASE)

Opening Tuesday September 14th 2021, 6 pm

A PICK GALLERY presents *Vase*, a group show opening on Tuesday September 14th, in Via Galliani 15/c, exhibiting the works of Carola Allemandi, Maria Vittoria Backhaus, Alejandro Bombín, Gabriele Bruccheri, Michael Conrads, Marco Cordero, Franco Costalonga, Igor Eškinja, Andrea Fiorino, Ito Fukushi, Francesca Gagliardi, Tea Giobbio, Agnese Guido, Diango Hernández, Federico Luger, Manuel Portioli, Ciro Rispoli, Job Sanchez, Esther Stocker, Fiorella Vair.

Vase is a group exhibition that includes artists who stand far from each other in time, in space and in their poetics. What brings the artworks together is the vase they all represent more or less explicitly.

This object - an archetype par excellence - is a protagonist of the history of art, design, craftsmanship and everyday life. The vase is not only an essential container, but also a witness of our private life, a representation of our collective tradition and an emotional transmitter.

Thanks to the works on display, we can outline a reflection on the full and the empty, on the relationship between content and container, approaching the concept of an alchemical vase as a symbol of the soul. The vase is examined as form and as matter: as something magnificent, a kind of matrix, uterus; a live, transcendent and spiritual space.

The exhibition opens within *Exhibi.to*, an event that sees the participation of different art entities in Turin distributed throughout the city, including galleries and cultural spaces, from September 14th to 18th 2021, and will be visible until October 30th 2021.
