~~A PICK GALLERY~~

BestOf

Online Exhibition

May 06th – September 26th, 2020

A PICK GALLERY opens on May 6th the exhibition ***BestOf*** curated by Emanuela Romano, with the artworks by **James Scott Brooks**, **Fernanda Carrillo**, **Julia Carrillo**, **Michael Conrads**, **Sven Drühl**, **Nadia Gohar**, **Esmeralda Kosmatopoulos**, **Jan Muche**, **Remijon Pronja**, **Laura Quiñonez**, **Gema Rupérez**, **Miro Trubač**.
As many other galleries during the lockdown, we are communicating mostly by social network to continue our activities: we have published insights about Laura Quiñonez exhibition (***Accidentes geo-gráficos***, March 10 – May 9, 2020; https://apickgallery.com/more-accidentes-geo-graficos/); we have promoted **virtual exhibition** curated by Sara Liuzzi on a new interpretation through coronavirus (https://apickgallery.com/video-esposizioni/); we have created a YouTube channel with **video-dialogues** made by artists living in quarantine (https://apickgallery.com/video-dialoghi/).

BestOf, the new project by A PICK GALLERY, is an online exhibition realized with the active participation of the public. Usually exhibitions are the result of the choices of the artists, gallerists and curators, but in this case we want to optimize the massive use of social media to involve anyone in the selection of the works.
BestOf is an exhibition that includes artworks selected by gallerists, the artists and the public, trying to look to the new dynamics and digital interactions that we have undergone during the lockdown, even if we believe that meeting people in person and have unmediated relationships with them is a fundamental part of our business.
During this quarantine we took the time to think to our future, how we can work in the light of the new regulations. Our idea is to start again with our usual counterparts: the artists and clients of the gallery.
In the exhibition there are tree works for each artist, selected as it follows: one work chosen by the gallery, one work chosen by the artist among his favorites and one chosen by the public. We will launch a survey on social networks asking them to choose among a couple of works. So, the exhibition will change over time, with daily additions of works selected online.
BestOf wants to show the best of what we have done, hoping that we will be able to start again soon with everyone's support.

The exhibition is visible on **Artsy** (https://www.artsy.net/show/a-pick-gallery-bestof), until September 26th, 2020.
